TENDER OBJECTIVE	:	<p>PR1MA intends to implement a Disaster Recovery and backup (DR) Solution to ensure business continuity in event of disaster. It is envisioned that the solution shall be the optimal resolution in overcoming IT and application sprawl and transform ICT into a one of the key business enablers for PR1MA. It does by providing acceptable Recovery Time Objective (RTO) and Recovery Point Objective (RPO), significantly lowering operational costs, shift resources to innovation, and drive business agility.</p> <p>This exercise is with intention to benefit PR1MA as a whole in assisting its business continuity as well as to improve ICT service levels while managing the costs and risks associated to it. Below lists out some of the ICT Disaster Recovery Infrastructure Solution key drivers and its expected ability:</p> <ul style="list-style-type: none"> •To support business continuity of identified ICT systems and applications that are required for PR1MA business operations. •Providing High Availability in the infrastructure for better production uptime and data integrity, hence leading to business continuity and system availability. •Implementation of PR1MA Disaster Recovery locally shall lower down the cost of managing and operation due to currency exchange. •Deliver and meet the demands of Line of Business and its growth. •Standardization of technologies and platforms in accordance with the ICT Policy to suite PR1MA needs, aligning with business to achieve greater values. <p>The above-mentioned key drivers shall enable PR1MA to have an industry standard Disaster Recovery to meet future business challenge.</p>
